TERO EXPERIENCE

COMPANY OVERVIEW

Sundancer Electric is a public-infrastructure electrical contractor specializing in complex, mission-critical systems across transportation, utilities, aviation, and public facilities.

- Complex public infrastructure and mission-critical electrical systems
- Tunnel boring operations and medium-voltage power distribution
- Transportation, rail, roadway, and ITS infrastructure
- Proven execution in active, owner-operated environments
- Trusted by WSDOT, Sound Transit, ports, and municipalities
- Industry-leading safety performance (EMR 0.61)

REPRESENTATIVE INFRASTRUCTURE EXPERIENCE

Sundancer Electric delivers complex electrical and systems infrastructure across transportation, tunneling, aviation, roadway, and public facility environments. Our experience includes medium-voltage tunnel boring power, ITS and traffic systems, airport electrical infrastructure, communications networks, and commissioning-intensive work performed within active, owner-operated facilities.

CORE CAPABILITIES

Sundancer is a diverse electrical contractor specializing in public infrastructure projects related to transportation, water treatment projects, special electrical systems and sustainability systems.

We are capable in technologies relevant to railway systems, signal houses, tunnel boring machines, charging stations, commercial building construction, and renewable energy.

We have also developed a broad knowledge base when working on existing electrical systems, active heavy and light commercial operations.

TRANSPORTATION & TUNNELING EXPERTISE

- Medium-voltage power distribution for tunnel boring operations
- TBM control, PLC, and instrumentation maintenance
- ITS, traffic signalization, VMS, ramp metering, and detection
- Fiber-optic backbone installation and testing
- Work performed under WSDOT, Sound Transit, and municipal standards

COMPANY INFO

Sundancer Electric, Inc.

1030 SW 34th St, Suite A, Renton, WA 98057

Incorporated: 2012/C Corp

Serving: WA, OR, MT, AK

DUNS#: 078496471

Signature / Representative Projects

COMPETENCIES

- Consult with project owners
- Workforce administration and compliance i.e., PLAs, CWAs, Priority Hire, LCP Tracker, etc.
- Jobsite peer to peer coordination
- Comprehensive safety systems & environmental responsible.
- System startup and documentation.
- Install electrical power systems and related specialty systems.
- Perform sitework (lighting/distribution) and underground service with conduit and loop feeds to / from the main site switch and transformers.
- Install 15 KV, 4160, 480V switchgear with feeders, fusing and conduit, and cabling systems.
- Sundancer Electric is a licensed General Contractor in Washington State and able to contract direct to owners.

CERTIFICATIONS, LICENSURE & CONTRACTING

Federal Certifications

- U.S. DOT DBE – 49 CFR Part 26 (WA, OR, CA)

State & Local Certifications

- WA: MBE, DBE, VOB, PWSBE
- OR: COBID
- King County: SCS

Tribal Governments

- TERO – Tulalip & Puyallup Tribes

Licensure

- WA Electrical Contractor: SUNDAEI889JW
- WA General Construction: SUNDAEI841CD
- State Licenses: WA, OR, MT, ID, AK

Contract Vehicles

- Lump Sum | T&M | Cost Plus | Unit Price | Supply | IDIQ

Why Sundancer Electric

- Proven delivery on high-risk, high-visibility infrastructure projects
- Trusted on multi-year, multi-million-dollar public works
- Expertise working inside live systems and secure facilities
- MBE / DBE / Veteran-Owned with critical-path scope capability
- Senior leadership directly engaged from preconstruction through closeout

NAICS

- 238210** Electrical Contractors
- 237130** Power & Communication Line and Related Structures
- 335313** Switchgear & Switchboard Apparatus Manufacturing
- 335314** Relay & Industrial Control Manufacturing
- 423610** Electrical Apparatus & Equipment Wiring Supplies and Related Equipment Merchant Wholesalers

Utilities & Pump Station Experience

Spokane Street Pump Station – Seattle, WA

Electrical power, controls, and instrumentation for a major urban pump station including 4160V primary distribution, VFDs, HVAC power, grounding and bonding, fire alarm, flow meters, and valve actuators.

Interbay Conveyance Rehab & Odor Control – Seattle, WA

Electrical infrastructure supporting rehabilitation of an active wastewater conveyance facility including temporary power, bypass operations, instrumentation replacement, heat trace, HVAC power, and primary distribution systems.

South Magnolia CSO Control Project – King County

Installation of main electrical service, VFDs, control wiring and piping, instrumentation, and SCADA coordination on a critical combined sewer overflow control facility.

Transportation, Rail & ITS Infrastructure

SR-99 Alaskan Way Replacement Program – “Big Bertha”

Dragados USA | WSDOT

Medium-voltage power distribution, controls, PLC, and instrumentation support for tunnel boring operations. | \$7M

Northgate to UW Light Rail – TBM N125

Jay Dee Contractors | Sound Transit

26.4kV and 13.2kV power distribution and maintenance supporting tunnel boring operations. | \$7M

I-5 NB Seneca Mobility Improvement Project

Washington State Department of Transportation (WSDOT) Intelligent Transportation Systems installation including ramp metering, detection, VMS, fiber-optic backbone, and system commissioning. | \$4.4M

Overlake Station – East Link Light Rail

Sound Transit

Complete communications scope including cabling, termination, testing, and commissioning.

Confluence Parkway Phase 1 – Wenatchee (Active)

City of Wenatchee

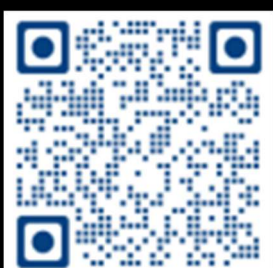

Roadway electrical, traffic signals, illumination, ITS systems, and fiber infrastructure. | \$3.8M

TECHNOLOGY & PLANNING

- Accounting System: Spectrum
- Estimating System: McCormick
- Project Management System: Trimble Construction
